INSTRUCTIONS FOR STATE FORM 56184, INDIANA HEALTH CARE REPRESENTATIVE APPOINTMENT

1. There are numerous types of advance directives. The Indiana State Department of Health encourages individuals to consult with their attorney, health planner, and health care providers in completing any advance directive.
2. This state form is not required for an appointment of a health care representative. An individual may use a form designed by their attorney or other entity to specifically meet the individual's needs. To be valid, any form must comply with statutory requirements.
3. An individual is not required to complete a health care representative appointment form. An individual may always choose to not appoint a health care representative. If there is no appointed representative, state medical consent laws would determine who may consent to your healthcare.
4. The medical record number and health care facility or provider is not required for the appointment to be effective. It may be included as a means of assisting the health care provider in identifying the correct patient and locating the appointment in the correct medical record.
5. The patient / appointor may specify in the appointment appropriate terms and conditions, including an authorization to the representative to delegate the authority to consent to another.
6. The authority granted becomes effective according to the terms of the appointment.
7. The appointment does not commence until the appointor becomes incapable of consenting. The authority granted in the appointment is not effective if the patient / appointor regains the capacity to consent.
8. Unless the appointment provides otherwise, a representative appointed under this section who is reasonably available and willing to act has priority to act in all matters of health care for the patient / appointor, except when the patient / appointor is capable of consenting.
